

## The Code of Ethics for Independent Representatives of NuVi Global has been written to establish principles and Fair and Ethical Practices

As an Independent Representative for Nuvi Global, I am committed to doing my personal business, professionally and responsibly in the Network Marketing industry. For this reason, I commit to the following principles:

- I will always be grateful for life
- I will respect and speak well of my sponsor
- I will wish the best for my neighbor, respecting him/her as a person, and speaking well and positively about his/her image
- I will carefully consider the best interests of my new representative(s). I will provide information they require in order to make wise decisions, and to be part of our NuVi Global family.
- I will identify myself correctly, as well as Nuvi Global, our products, and the purpose of my presentation to any customer or prospect. I will answer questions directly and honestly at all times.
- I will use realistic projections that are in line with sales along with the average individual incomes reported by NuVi Global, respecting the compensation plan that has been established.
- I will let my representatives know that the financial results are directly related to their own marketing capabilities, leadership, and personal efforts.
- I will never discredit any representative, Nuvi Global, or any network marketing company.
- I will never enroll a person who is sponsored by a representative of another line of sponsorship with Nuvi Global.
  - \* Unless, after one month that opportunity presents its self again, or three years of inactivity and leaves Nuvi Global, the person could freely be sponsored with another representative.
- I will operate within the spirit of the Policies and Procedures with Nuvi Global, and in particular avoid any inappropriate use of social media.
- I Will not carry out any conduct that could damage or harm another representative, or the company, or any multilevel organization.
- I will remember to meet and represent the vision of Nuvi Global to help others achieve an optimal quality life
- I will transmit any claim promptly and courteously, following the procedures of the company already established for exchanges and returns.
